

# FORM TO BE USED TO WRITE UP RESOLUTIONS IN THE POLICY DEVELOPMENT PROCESS

We will use a split page format. The left side of the page will be used for the resolution or any change in wording in any resolution. We will use the strike out and underline system. All old wording will be ~~struck out~~ and all new wording will be underlined.

The right side of the page will be used for information on the resolution. No new wording for a resolution will be placed on the right side of the page.

The page format will be as follows

---
